

YSGOL CARREG EMLYN IS A RURAL
SCHOOL OFFERING EDUCATION
THROUGH THE MEDIUM OF WELSH

**WHY CHOOSE WELSH MEDIUM
EDUCATION FOR YOUR CHILD?**

Feeling of belonging

The Welsh language is an important part of Welsh culture and identity. Receiving their education through the medium of Welsh helps children to connect with their roots and gain a feeling of pride in their language and traditions.

Bilingualism

There are areas of Wales where Welsh is an extremely important element for example the arts, media and education sector. Being fluent in Welsh could open more opportunities in these sectors as well as the public sector where there is a growing need for a bilingual workforce.

Opportunities

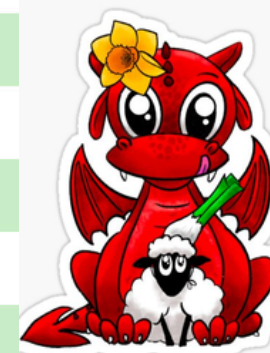

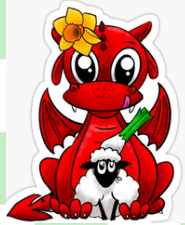

Not only do we offer the opportunity to learn to speak, write and read through the medium of Welsh our curriculum also opens doors for learning about our country, our traditions and our history. We have access to books, visits and activities that are unique to Welsh medium schools.

Future of the Welsh Language

By choosing Welsh medium education your child will contribute to securing the future of our Welsh language. It's a special language and by ensuring our young people learn the language through their education will help keep the language alive for future generations.

Skills

Learning two languages can strengthen our memory. Studies have proven that bilingual children are better at concentrating and problem solving which will benefit them in their future learning.
